Wholesale Price List of Roots, Plants and Rooted Cuttings

Notice: This is a wholesale list and unless you are a commercial grower or sell dahlias, you must add 1-3 to price list, (except where prices are market net), unless order amounts to \$7.00.

Green Plants: We specialize in Green Plants and recommend them over roots. Our plants are grown in 3-inch pots under moderate heat. Well hardened-off before shipment. Can be shipped anytime after May 1st. Roots can be shipped at anytime.

Rooted Cuttings: These are well rooted and are easily shipped. However, we do not guarantee these but add extras in case of loss.

Inspection: Our dahlias were field inspected in 1937 for Mosaic and Ring Spot, which are two serious diseases to guard against.

Terms: Cash with order, or balance before shipment. We recommend express shipments on account of insurance. Nothing will be sent by Parcel Post unless sufficient postage accompanies order.

We are greatly in favor of the plan for the reduction of prices on new introductions. This concerns prices on plants for the first year, and roots and plants the second year. As in many cases a dahlia gets to be old before the average customer can afford to purchase it. Also, making the prices net, gives the amateur the same privilege as the commercial man, by allowing him to buy more new varieties.

Prices on Mrs. Wm. S. Knudsen and Mrs. C. E. Wilden for 1939 will be, Roots \$3 net and Plants \$1 net.
